

include/states/BattleState.hpp

```
graph BT; BattleStateCpp[src/states/BattleState.cpp] --> BattleStateHpp[include/states/BattleState.hpp]; SelectionStateCpp[src/states/SelectionState.cpp] --> BattleStateHpp;
```

The diagram illustrates the include relationships between three source files. At the top is a grey box labeled 'include/states/BattleState.hpp'. Below it are two white boxes: 'src/states/BattleState.cpp' on the left and 'src/states/SelectionState.cpp' on the right. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.

src/states/BattleState.cpp

src/states/SelectionState.cpp
