

createText

```
graph LR; A[createText] --> B[ResourceManager::getInstance]
```

A diagram showing a call from a function named 'createText' to a static method named 'ResourceManager::getInstance'. The 'createText' box is gray, and the 'ResourceManager::getInstance' box is white. A blue arrow points from the right side of the 'createText' box to the left side of the 'ResourceManager::getInstance' box.

ResourceManager::getInstance
